Head Kit & Sanding Glove

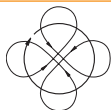

Head Kit

- Turn your rotary buffer into a swirl-free finishing tool!
- Random action prevents “burn through” on edges of clear coat finishes.
- No heat build-up means no “haze” or swirl-marks.

Fits Most Buffers with
Common 5/8" – 11 Spindle

Hook-Faced Pad

**Large 3/4" Diameter
Random Orbit**
Means No Heat Build-Up!

Random Orbital Head Kit

Part No. 61374

Sanding Glove

- Sand difficult shapes with ease – great for custom work.
- Easily control pressure and sanding coverage.
- Includes rubber insert for more rigid applications. Insert fits into pocket under hook-face area.

Dynamitt Sanding Glove

Part No. 58005

- Abrasives available

Air Lube & Sanding Creme

Dynabrade Air Lube

- Absorbs up to 10% of its weight in water.
- Prevents rust and formation of gum and sludge.

Part No. 95821 **Part No. 95842** **Part No. 95843**

- 4 ounces
- 1 pint
- 1 gallon

Part No. 96101

- 24 – 4 ounce bottles

Dynabrade Finesse Creme

- Sanding compound for metal, fiberglass and composites.
- Use with fine-grade sanding discs.

Part No. 95723 **Part No. 95724** **Part No. 95725**

- 4 ounces
- 1 quart
- 1 gallon

Accessories

Dynabrade Glaze

- For use with slow-speed tools to achieve a high-gloss finish after compounding.

Part No. 95727

- 4 ounces

Part No. 95728

- 1 quart

Grease & Grease Gun

- Multi-purpose grease for all types of bearings, cams, gears.
- High film strength: excellent resistance to water, steam, etc.
- Workable range 0° to 300°.

Part No. 95541

- Push-type grease gun

Part No. 95542

- 10 oz. tube

Tune-Up & Vac Conversion Kits

Tune-Up Kit

- Tune-up kit contains high and medium wear parts.

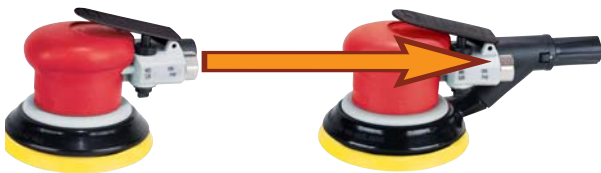

Dynorbital-Spirit® Tune-Up Kit

Part No. 96510

Vacuum Conversion Kits

- For Palm-Style Dynorbital Supreme and Dynorbital-Spirit™ Sanders.
- Convert non-vacuum tools to Self-Generated or Central Vacuum models.

Interface Pads

Dynafoam Interface Pads

- For Hook-n-Loop abrasives; soft foam increases conformability allowing operator to easily follow contours.
- Converts standard pad into a fine finishing and finessing pad!
- Attaches between hook-face sanding pad and loop-face abrasive.

↓ White printed side attaches to standard hook-face pad.

Black hook side accepts conventional loop-face abrasives. ↑
