

Safety Couplers & Plugs

For Quick, SAFE Connection and Disconnection of Air Lines!

- Unique "Two Step" Safety Disconnect System releases air pressure *before* tool is disconnected. Eliminates "hose whip."
- Ergonomically designed for easy one-hand operation!
- Advanced composite and stainless steel construction.
- Impact resistant with non-scratch surface.
- Aerodynamically-designed valve improves air flow to tool.
- Anti-static construction; cannot rust or corrode.
- Lightweight to reduce operator fatigue.
- Engineered to minimize air leakage.
- Conforms to ISO 4414 standard, and these specifications:
 - 7.2 / 7.4 European Full Flow Profile
 - Up to 41 SCFM (1,161 LPM) maximum flow

**With Unique
"Two Step"
Safety
Disconnect
System!**

1
Step One: Pull back on the sleeve and the compressed air is vented.

2
Step Two: Push forward on the sleeve to disconnect the coupler in complete safety!

Safety Couplers

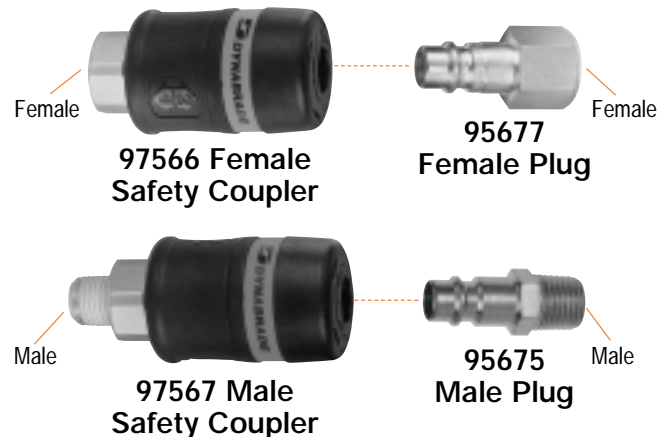

Part Number	Coupler Body Size	Thread Size	Air Flow Range (LPM)
97566	1/4" (6mm)	1/4" Female NPT	Up to 41 SCFM (1,161)
97567	1/4" (6mm)	1/4" Male NPT	Up to 41 SCFM (1,161)

Plugs

Part Number	Plug Body Size	Thread Size	Air Flow Range (LPM)
95675	1/4" (6mm)	1/4" Male NPT	74 SCFM (2,095)
95677	1/4" (6mm)	1/4" Female NPT	74 SCFM (2,095)

Safety Coupler/Plug Assemblies

Part Number	Coupler Body Size	Coupler Thread Size	Plug Body Size	Plug Thread Size
97572	1/4" (6mm)	1/4" Female NPT	1/4" (6mm)	1/4" Male NPT
97573	1/4" (6mm)	1/4" Female NPT	1/4" (6mm)	1/4" Female NPT
97574	1/4" (6mm)	1/4" Male NPT	1/4" (6mm)	1/4" Male NPT
97575	1/4" (6mm)	1/4" Male NPT	1/4" (6mm)	1/4" Female NPT
