

Comfort Platform

- Now **included** on all palm-style Dynorbital-Spirit® random orbital sanders.
- Provides additional hand and wrist support, further enhancing operator comfort. Also offers increased protection against cold air exhaust.

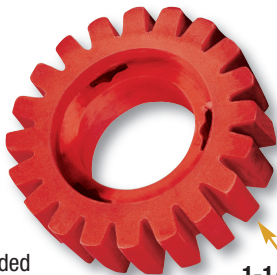

Part No. 59330

- Retro-fit your existing sander.

Eraser Decal Removal Wheel

- Superior performance versus conventional “solid” or “doughnut-type” wheel erasers.
- Wheel has crepe teeth serrations for improved cooling effect air flow. Also resists heat buildup and prevents “jumping” or vibrations.
- Fits competitive tools.

Part No. 92255

- Works great on two-sided adhesive molding tape.

1-1/4" Wide

DynaZip-Eraser Tool

Pencil Filer

- 14,000 strokes per minute & .007" stroke length.
- Faster than hand filing.
- Allows more precise material removal than with a Die Grinder.
- Effective for removing frozen bolts.
- Runs files, scriber points and chisels.
- Includes 4.6 feet of air hose, file sold separately.
- Available January 2008.

NEW!

Model 10832

- Includes 3 mm collet.

17 Gallon Vacuum Combo Kit

- Includes **TWO** Dynorbital-Spirit® Random Orbital Sanders and 61301 Electric Portable Dry Vacuum.
- Also includes bonus Tool Bag and T-Shirt.
- All the features you need in a vacuum, quiet operation, H.E.P.A. filtration, auto on/off, two 20-foot hoses, and powerful variable suction control.

Choose Between PSA or Hook-Face Pads

Model 10010

- Includes 21039 PSA Pad Sanders.

Model 10011

- Includes 21064 Hook-Face Pad Sanders.

Dynorbital-Spirit®

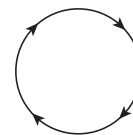

- 3/16" diameter orbit.
- True 12,000 RPM air motor.
- Central Vacuum-Ready.
- 6" diameter sanding pad.
- Lightweight ergonomic design.
- Comfort Platform standard.

The Best Sander For Your Shop!

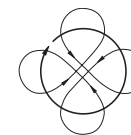

Dual-Action Buffing Head

- Locks in random action and converts back to rotary motion with the push of a button.
- Attach to any buffer with 5/8-11" spindle.
- No need to remove polishing head from buffer.
- Accepts 8" diameter polishing buffs.
- Large 3/4" offset simulates hand polishing action.
- Random action prevents "burn through" on edges of clear coat finishes.
- No heat build-up means no "haze" or swirl-marks, surface stays cool.
- Available January 2008.

Rotary Orbit
For Cutting Using Compounds

3/4" Diameter Orbit
Means No Heat Build Up!

NO MORE SWIRLS!

Part No. 61379

- Head only.

Part No. 61384

- Includes pad and polishing buff.
